Hi

My name is Chaim Hoffman

I own a house in Outremont and I have 2 cars in my household and with this new regulations I have to pay a crazy price for my second car which is a crazy fact by its self however even if I would like to get a permit it's not even pro rated it's the full price for the remaining 7 months which is absolutely ridiculous what is my family supposed to do when I am out of town with my car the whole week they should not have a car ?

Secondly I have my 4 kids living in the states with 50 daily parking permit and them coming for weekends which means each time is a 3 day minimum stay it ends up being that each kid could only come 4 times a year that's besides any other visitors or if the want to stay longer this is as well not though out properly it should be 50 stays instead of days

Yours truly

A Outremont resident
