Hi

My name is Esther Karmel

I own a house in Outremont and my parents do as well and they are handicapped we are 7 siblings with the new regulations my siblings can't come to be with my parents on the weekends as each weekend is a 3 day minimum stay which comes out to only 16 visits and that's besides if anyone wants to stay extra days and I can not give permits from my house as then I will not have enough for any visitors that I am getting this should be changed to 50 stays not 50 days

Also with this new regulation the parking permits went up crazy in price especially for the second car how many people use to go and come to work and don't work with their spouse together and need separate vehicles or their spouse is out of town with the car for the whole week I would understand if any vehicle after that is more or when it is registered to the same person but not when it is to an address

Yours truly

An Outremont property owner
