

Hello,

In regards to the new parking rules, my suggestions would be:

Increase the time to 4 hours, like Westmount has. This gives people time to have guests over for a dinner party.

It's enough time for people who use a cleaning service to have them come and do their work. It prevents people from other neighbourhoods from parking their cars here for days.

Allow workers in the neighbourhood, teachers or store workers, to buy a permit that allows daytime parking, perhaps from 8 am to 6pm.

Allow some way to call for a permit as some people do not have the internet at home. Actually, in our neighbourhood many do not!

I do like the idea of charging people with larger cars/engines more money to buy a permit.

That's a nice change to the rules.

Sincerely,

Paula Moser
