

In Support of Direct Flight Montreal – Shanghai/Beijing

On behalf of Shanghai Jiangsu Zhejiang Association of Montreal, I, Ze Yuan Wang, would like to take this opportunity to fully support the proposal on direct flights from Montreal to Shanghai or Beijing with the following reasons: First, the direct flights will strengthen the economic relationship between Montreal and cities in mainland China, enhance the strategic geographical location of Montreal and attract more Chinese entrepreneurs and international students to visit Quebec. Second, the direct flights will become preferred option for the Chinese immigrants when they purchasing flight tickets. The non-stop flights will reduce the transit time and efforts. Third, Montreal is one of famous tourist cities in the world and the opening of the direct flights will encourage bilateral tourism and play an important role in promoting the development of Montreal's tourism industry. I sincerely hope that through the great efforts of all parties, the direct flights from Montreal to Beijing will become a reality soon.
