PUBLIC MEETINGS

COUNCIL ROOM

Borough Hall
13665, boulevard de Pierrefonds
Pierrefonds

September

8 at 7 p.m. (Tuesday exceptionally)

Borough Council Meeting

14 at 7 p.m.

Urban Planning Advisory Committee meeting

October

No Borough Council Meeting during the electoral campaign

13 at 7 p.m.

Urban Planning Advisory Committee meeting

To ensure that the question period during Borough Council meetings proceeds smoothly, residents who wish to address council members are asked to register with the Borough Secretary before the meeting.

The Borough Secretary will be in the council room as of 6:45 p.m. to record your name and address, status (owner, tenant or occupant) and the nature of your question. During the question period, you will be asked to address your question to the members of council.

NEXT CITY COUNCIL MEETING AT MONTREAL CITY HALL

275, rue Notre-Dame Est

September 21 at 7 p.m.

No City Council Meeting in October during the electoral campaign.

IMPORTANT NOTICE

Municipal buildings will be closed Mondays September 7 (Labour Day) and October 12 (Thanksgiving).

Gérald Tremblay
Mayor of Montréal

MESSAGE FROM THE MAYOR OF MONTREAL

Dear Citizens,

In Montréal, the quality of life of our fellow citizens is important to us. That is why we put a lot of energy into offering you year-round efficient community facilities and equipment, as well as high-quality services that are nearby and meet your needs.

This is especially true in the borough of Pierrefonds-Roxboro, whose elected representatives and borough staff care a lot about the development and promotion of all neighbourhoods: you can see this at work every day.

I invite you to keep this guide in a safe place where you can easily find it. It will help you plan your everyday life and will keep you informed of the many services available to you in your borough.

Have a great end of summer!

Monique Worth
Borough Mayor

MESSAGE FROM THE BOROUGH MAYOR

I am writing these lines while summer is just around the corner – at least we all hope it is. This bears some resemblance with some of our projects that meet with some delays. I keep being told to be patient...that good things come to those who wait. Fortunately, our patience has paid off as we have been able to capitalize on increased investments that will help us do more. I can hear you saying... that's nice but at some point things have to get done, and I agree – I am therefore very pleased to confirm that we will be launching work on a few projects shortly. For instance, we will address a long standing and very valid request from our soccer associations by building a new chalet and installing a synthetic soccer field in Grier park. As well, our library extension project, already announced a few times, will now be built with a LEED GOLD certification - a huge improvement on the environmental front.

Other projects however require more time... and patience. The urban boulevard in the land reserved of autoroute 440 and the Pierrefonds Ouest development for instance. There is a great focus on developing this area in an environmentally friendly manner – we will take whatever time is required to achieve a truly great outcome which will set an example for all others. I am convinced that Pierrefonds Ouest will be the most extraordinary place to live on the island.

Over and above the Borough projects, there are those initiated by citizens themselves. Citizen participation is still very present and two recent examples come to mind. First well worth noting is the July 1 parade that was saved and re-introduced in the calendar of activities of Heritage Week. Many citizens worked very hard to rescue the parade and thanks to their involvement and dedication, Pierrefonds-Roxboro citizens were able to join

together to celebrate Canada Day and pursue the tradition of this activity in our Borough. I wish to thank all those who lined the parade route and who participated in making the parade a fun and successful activity for all.

I have another compelling example! A young lady, barely 12 years old, who decided to put together a team of students to perform fund raising activities that would lead to the installation of a new game module and the restoration of those already present in a local park. At the regular meeting of Council in June, Kayleigh explained how she rallied classmates, parents, teachers and school management to her community oriented cause. These youngsters developed an action plan that would allow them to contribute 'in their own way' to the installation of the park equipment they hoped to get from the Borough. They held a Hat Day, a garage sale and other events to raise funds and Kayleigh presented the money raised to Council, in public, on June 1. These young citizens are our future leaders, they are involved and committed and they only ask that we listen and guide them – they are fantastic to see. The Borough could not remain impassive in light of such a community effort spirited by the young students so we decided to go ahead with some work ahead of schedule and by installing a new game module in the park. Once the work is completed, a plaque will indicate the contribution of our young partners.

These are only two examples of citizen participation – I invite each and every citizen to get involved in the community as it is a win-win formula and definitely what motivates me to remain on board and open to your suggestions and comments.

*Bertrand A. Ward,
City Councillor, West district
President, Commission sur les
finances, les services
administratifs et le capital
humain du Conseil municipal
de Montréal*

MESSAGE FROM BERTRAND A. WARD

Citizens want to know... about garbage removal.

Many citizens have questioned why the Borough Council decided to reduce the household refuse collections for single family dwellings and buildings with 8 units or less, from twice weekly collections to only once. Just a note, buildings of 9 or more units, schools and business have remained at two collections per week.

When studying the 2009 budget, our indicators showed that only 46% of households were regularly using the services of recyclable materials collections. Recyclables include paper, cardboard, plastic, glass, metal and aluminium, milk and juice cartons, etc. It is obvious that we remain far from our objective of recycling 60% of our waste.

To encourage all citizens to join in the collective effort to recycle more we planned to provide one 360 litres rolling bin, equipped with a cover to be used for recycling. This new initiative allowed us to consider reducing the number of household refuse collections from two to one per week while maintaining the recyclable materials collection as-is. Unfortunately, Ville de Montréal faced severe budget restraints in 2009 and the adjustments required to balance the budget delayed the introduction of this program and the delivery of the 360 litre bins.

During this time, the Borough needed to renew the contract for removal of household refuse and recyclables for a period of 5 years. A disappointing surprise awaited us when opening the tenders; regardless of our decision to reduce the refuse collections from two to one per week, the lowest price quoted by the suppliers was approximately 55% more expensive than the previous contract. This 55% increase represents 5 613 261 \$ over the period of five years.

In 2008, the annual cost incurred by the Borough for these collections was approximately 2 million\$ whereas it is over 3 million \$ for 2009, with one less collection. This amount represents close to 10% of our overall budget – that’s 3 million \$ needed every year for removal and transportation of waste, refuse, recyclables, green residues, leaves and Xmas trees!

The decision to encourage citizens to recycle more will lead to a reduction of household refuse and this is both environmentally and economically sound reasoning. While many citizens have asked if their taxes would be reduced due to the reduction in service, the information above would lead to believe quite the contrary. During the 2010 budget preparation, the members of Council will need to address this situation, however, as we have done in the past, I can assure you that everything will be done to minimize or eliminate the impact of these added costs on your tax bills.

FINANCIAL SITUATION OF THE BOROUGH
In Pierrefonds-Roxboro, an average single family home was evaluated at \$161,684 in 2006 while it is evaluated at \$216,737 in 2009. A large majority of single family dwelling owners have had only very slight tax increases of the past 4 years while 30%, whose property evaluations have increased less than the average, have benefited from a reduction in taxes during this period. The Borough’s administration is very rigorous and efficient when it comes to managing our finances. We have a comfortable accumulated surplus as well as a reserve of \$964,000 for snow removal purposes, and this will allow us to face the 2009/2010 winter with peace of mind.

WEDNESDAY 26TH AUGUST 2009

A Tribute to Seniors

A special day – exclusively for Pierrefonds-Roxboro residents aged 65 years and over

At the Pierrefonds Cultural Centre, 13850, boul. Guin Ouest.

What's up with regional associations...

The Lakeshore General Hospital (LGH) Foundation will be holding many exciting events in the approaching months.

Our 9th Annual Lakeshore Ball will be held on October 24th, 2009 at the Château Vaudreuil. This year, the event will have a 'classic' theme, evoking elegant evenings from a timeless era. The ball is a magical evening of elegance, superb dining, dancing with music by Paul Chacra Entertainment, complete with valet parking and a comprehensive silent auction. This enchanting and memorable event is one of the West Island's most desirable social events of the year.

On May 25th, we held our annual golf tournament, The Nick Di Tomaso LGH Foundation Golf Tournament at the Beaconsfield Golf Club. The event sold out, raising approximately \$100,000 for health care in the West Island.

In addition, the Annual Duck Race was held on June 13th, 2009 at the Ste-Anne-de-Bellevue Lock, and the first ducks across the finish line won an assortment of prizes – better than ever before!

All of our events will raise funds to develop and maintain health care excellence in the West Island and beyond. We look forward to seeing you at all of our events!

We always need volunteers for our events. If you would like to volunteer or for more information about our events, please contact the Foundation office at 514 630-2081 or at info@fondationlakeshore.ca.

Pierrefonds-Roxboro road map on sale at Borough Hall for \$3

ACCÈS MONTRÉAL CARD

For just \$7

Montrealers and Montréal taxpayers can purchase the Accès Montréal card and take advantage of reductions at more than 100 recreational and cultural attractions.

The card entitles you to a 10% discount on the On Stage shows (advertised in this magazine). Valid for the purchase of individual tickets, at regular price and in person only

JUST A REMINDER...

Chimney sweeping

Chimney-sweeping and the cost incurred are the homeowner's responsibility. To prevent fires, have your chimneys inspected and cleaned at least once a year. Always call upon a professional chimney sweep.

For your own protection as well as his, insist on seeing his or her Professional Qualification Certificate and proof of insurance.

You will find professional chimney sweeps in the Yellow Pages.

Household Hazardous Waste Collections

Hazardous products are not picked up by the Public Works Department. They must be brought to the location, on the dates and times indicated. It is strictly prohibited to deposit hazardous wastes on city land, at all times.

If you cannot wait for the next collection, inquire with local merchants. Paint retailers often accept left over paints and garages usually take used oils and old tires. Pierrefonds-Roxboro residents can drop off their hazardous waste at any collection site, on the following dates and times.

Times

Fridays, 12 to 8 p.m.
Saturdays and Sundays,
9 a.m. to 5 p.m.

Schedule

Friday, August 28

Ballantyne Park,
520, boulevard
Bouchard, Dorval

Saturday August 29

Municipal garage, 25,
rue Claude-Jodoin,
Kirkland

Saturday and Sunday, September 5 and 6

Elm Plaza, 275, rue Elm,
Beaconsfield

Sunday, September 13

Municipal buildings, 12001,
boul. De Salaberry,
Dollard-des-Ormeaux

Sunday, September 20

Municipal garage, 300, rue Surrey, Baie-d'Urfé

Saturday and Sunday, October 3 and 4

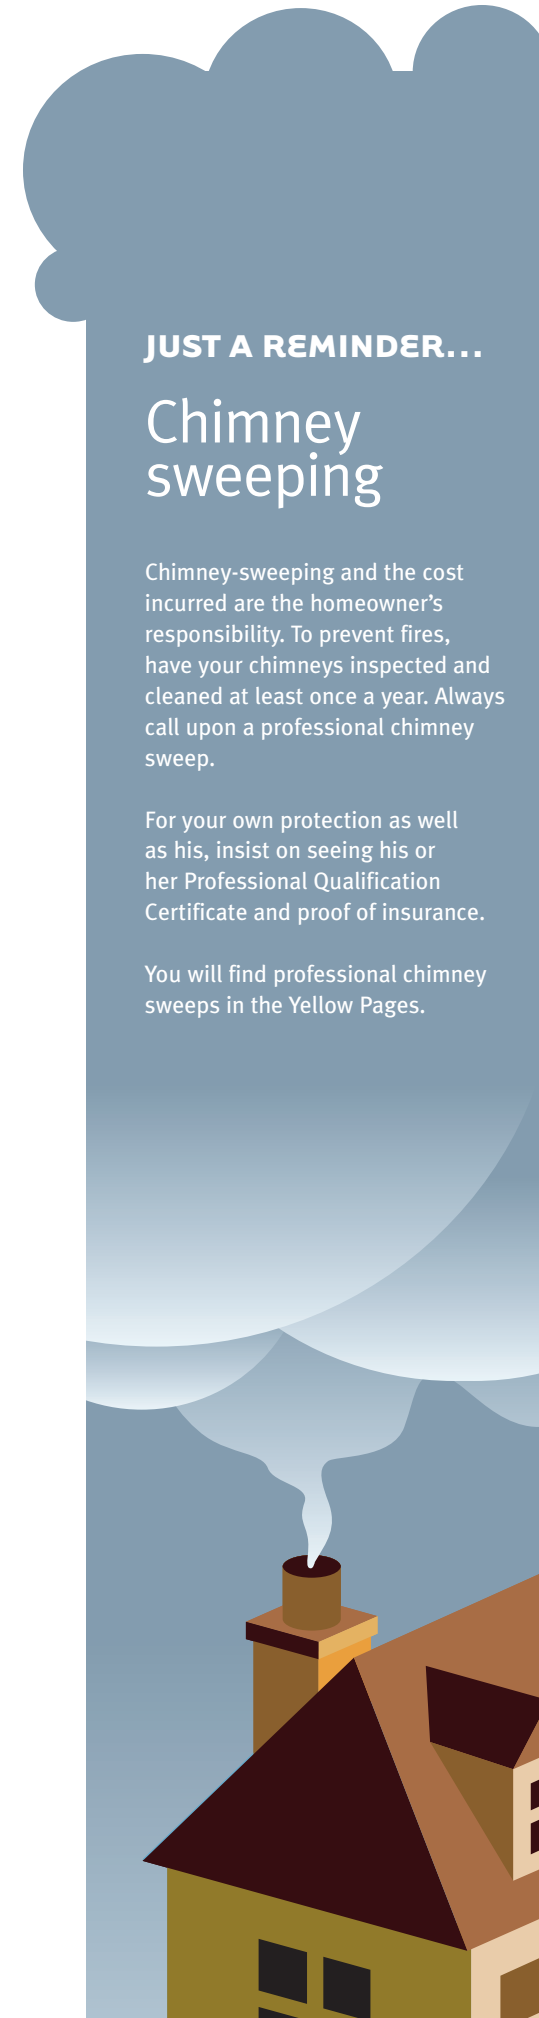

Fire station, 13795, boulevard de Pierrefonds, Pierrefonds

Friday and Saturday, October 9 and 10

Fire station, 401, boulevard Saint-Jean, Pointe-Claire

Saturday, October 17

Socio-cultural Centre, 490, montée de l'Église, L'Île-Bizard

Dog and Cat License Renewal Medals are on sale at Borough Hall

The new Pierrefonds-Roxboro By-law CA 290011 specifies that: "No one can keep a dog or cat within the city limits without obtaining a permit, in conformity with the provisions of this by-law." It is therefore forbidden to keep a dog or cat without a license in the Pierrefonds-Roxboro Borough.

A permit for a dog and a cat is valid from August 1 of one year to July 31 of the following year. Dog and cat owners must obtain a tag for their animal by filling out the form below. In case of more than one animal at the same address, photocopy as needed or write the information on a sheet of paper.

The maximum number of animals allowed in a dwelling is three (3 dogs, 3 cats or 3 of these animals combined).

The form must be brought or mailed to Borough Hall, 13665, boulevard de Pierrefonds, Pierrefonds (Québec) H9A 2Z4 with the appropriate payment. The Citizen Services Office of the Borough Hall – where the licenses are sold – is open Monday to Thursday from 8 a.m. to 5 p.m. and Friday from 8 a.m. to 12 p.m. Upon receipt of the duly filled and signed form, the tag and the receipt will be given or mailed to the owner.

For more information, please call 311.

GARBAGE AND RECYCLABLE MATERIAL COLLECTIONS REMINDER

GARBAGE COLLECTION

PIERREFONDS AND ROXBORO SECTORS

Basic rules for a more efficient refuse collection, which takes place Mondays West of St-Jean Boulevard and on Thursdays, East of St-Jean Boulevard, once a week, all year round, even on legal holidays, except for Christmas and New Year's Day:

- Refuse shall be placed at the end of the driveway, close to the street, behind the sidewalk, curb or ditch.
- Refuse must be deposited between 8 p.m. the night before and 7 a.m. the day of the pick-up.
- Refuse must be placed away from recyclable material.
- Collections are held between 7 a.m. and 7 p.m.
- Waste containers must be closed and waterproof, be made of metal or plastic, equipped with handles and a cover and have a maximum capacity of 100 litres and a maximum weight of 25 kg. Garbage plastic bags are authorized.
- The household refuse collection contract includes heavy and bulky objects such as ranges, sofas, beds, chairs, carpets (rolled, cut tied or folded), television sets and other similar objects.
- The collection is limited to 6 containers (25 kg per container) per dwelling unit of a total weight of 150 kg.

Note

The following containers are not authorized and will not be emptied by the waste removal crews:

- 205-litre metal or plastic barrel (45 gallons).
- Any type of container that exceeds 100 litres (25 kg).
- Wheeled rubbish bins that contain more than 100 litres.
- Any type of container that does not have handles.

To avoid interruption of the waste removal service and to ensure the safety of the crews, please abide by the by-laws and use an authorized garbage container.

RECYCLABLE MATERIALS

PIERREFONDS AND ROXBORO SECTORS

The recyclable material collections are held on Mondays West of St-Jean Boulevard and on Thursdays East of St-Jean Boulevard.

Any new resident of a single-family or of a building of 8 apartments or less can obtain, free of charge, a recycling box for a period of one year following his or her move. After that time, a fee of \$10 applies. Proof of the old and new addresses - such as telephone or electricity bill - is required. Anyone wishing to replace a damaged or lost recycling bin must pay \$10.

You can obtain a recycling box at the Public Works Department, 14150, boulevard Gouin Ouest, Monday through Thursday, from 8:15 to 11:45 a.m. and 1:15 to 4:30 p.m. and on Friday from 8:15 to 11:45 a.m. or at the Eco-quartier, 13, rue du Centre-commercial, on Wednesday evenings or Saturday mornings.

Note

Authorized containers are 64-litres recycling box for single-family residences and buildings of 8 units or less and a mobile recycling bin for buildings of 9 units and more.

GREEN RESIDUES AND DEAD LEAVES COLLECTION

PIERREFONDS AND ROXBORO SECTORS

The next green residues and dead leaves collection will be held on Wednesdays, from September 9 to November 25, inclusively. Important: do not mix household garbage with green residues and leaves.

Note

The ONLY containers authorized for this collection are the see-through or orange polythene bags.

WEST OF ST-JEAN BOULEVARD: between the limits of the Senneville Village and St-Jean Boulevard
EAST OF ST-JEAN BOULEVARD: between St-Jean Boulevard and Autoroute 13, and includes the former Town of Roxboro

THE GREEN LINE

Congratulations to our citizens for the Composting program success!

We want to underline the exceptional citizen's involvement to act in concrete terms for the environment by taking part in our Composting program this spring. Home

composting will allow you to significantly reduce your ecological footprint. We distributed a record number of compost bins in 2009, showing the increasing interest of the population for this practice. A special thanks to the Société d'horticulture et d'écologie de Pierrefonds for the great information session evening. We hope having new followers next year.

Also, we want to thank you for your participation at the Compost and wood chips distribution that was held on May 9 during the International compost awareness week.

Happy ecological gardening!

Don't forget! It is the time to monitor white grubs in the lawn, from mid-August to mid-September. A healthy lawn can tolerate 5 to 10 grubs per square foot. For more information on grubs monitoring, contact the Green Line.

Did you know that?

Grass clippings represent 30% of waste collected and transported to landfill. Decomposition in landfill of grass and dead leaves produces methane, a green house gas, as well as a toxic liquid, the leachate that pollutes ground and surface water.

According to the agronomist Micheline Lévesque in her book *L'écopelouse*, grasscycling, that is to say leaving grass clippings on the lawn when mowing, stimulates soil life and increases soil fertility. It also allows to reduce the lawncare time by 38% in a year and **provides 25 to 50% of nutrients needs for free.**

One could think that this practice will create thatch and choke the lawn but it is false. On the contrary, by activating soil life, the thatch is reduced. A good mowing frequency and length will prevent grass clumping.

All mowers can be used for grass-cycling. From now on, adopt this lawncare practice.

Planting trees

Planning ahead before planting is the best approach to avoid bad treatment and problematic situations that lead unfortunately too often to cutting.

Before planting, consider:

- The distance separating buildings, sidewalks and parking, right-of-ways, hydro-wire proximity, etc.
- Existing municipal by-laws
- The future landscaping projects (pool, patio, shed, parking, etc.)
- The type of soil, fertility and humidity
- The desired shade (dense, medium, light)
- The tree dimension (height, width) at maturity and the long term aesthetic effect desired (screen, frame)
- The presence of flowers and fruits (falling fruits can be quite unpleasant)
- The tree resistance to stress (diseases, insects, heat, drought) and hardiness of the tree.

When all conditions and dimensions are established, it is easier to choose a tree that suits the site. At the nursery, ideally choose a tree of a diameter of at least 2.5cm at 1 meter high from the collar. Choose a healthy and vigorous plant, well shaped with a straight trunk, not injured. Take a look at the roots if possible. They should not be overly coiled around themselves in the pot. If it is the case, coiled roots have to be cut before planting to prevent strangulation. Avoid unbalancing the trunk and balled roots when carrying and during transportation. Protect leaves and trunk from injuries and drying out. Plant your tree as soon as possible once it is at home. Otherwise, place it in a cool and shaded area and make sure that the soil is always moist.

How to plant a tree?

- 1- Plant on a cool and cloudy day.
- 2- Dig the planting hole at the depth of the root ball (at plant's collar). The bottom width has to be of at least the diameter of the root ball and the top opening of at least twice the width of the root ball.
- 3- Remove the tree from the container if there is one, except if it is a wire basket and burlap. Place the plant in the hole and make sure that the collar is even with the ground. If not, rectify the level.
- 4- Make sure that the trunk is straight.
- 5- For balled and burlapped trees, remove the first third (1/3) of the wire basket, burlap and twine.
- 6- Use a mix of tree planting soil and compost and pack down with feet until the soil is even with the ground level and collar.

- 7- Build up a 15cm (6") rim to form a saucer around the root ball and add an 8cm (3") layer of mulch covering the planting hole. Keep the trunk free of mulch. Water generously.
- 8- Stake the trees exposed to strong winds. The tree must be free to move. Place the stake on the prevailing winds side. Use a metal stake and a flexible sling.
- 9- Except for broken branches, the tree does not need to be pruned right after planting.

Post-planting maintenance

- Watering for the next three (3) weeks following planting is crucial. Water thoroughly and deeply once or twice a week, even if it is raining. In case of a prolonged drought during summer or fall, deep watering is necessary.
- Add extra mulch around the tree when needed to keep it thick and make sure that the collar is free.
- Check regularly any stakes to avoid injuries to the trunk. Remove them when they are no longer needed (one or two years).
- At all times, avoid causing injuries to the bark of your trees with your garden tools like the mower and weed trimmer. By doing so, you will prevent many problems and all tree advantages will benefit you and many generations to come...

Look for cheaters, protect your health

Since 2004, Ville de Montréal has adopted a by-law prohibiting the use of pesticides outside buildings. In 2006, the Ministère du développement durable, de l'environnement et des parcs du Québec has prohibited the sale and use of turfcare pesticides.

Among the products that are prohibited on the borough territory, there are synthetic herbicides like the selective herbicides that kill broadleaf weeds without killing the grass.

Unfortunately, some people and lawncare companies still use those herbicides without telling their clients and neighbours with an appropriate sign, that is to say a red sign indicating "Do not walk on the treated surface". It often happens that companies post a green sign advertising that NO pesticide was used and that the area is safe. Some will even write in their contracts, invoices and publicities that the treatments are natural and safe and that they respect municipal and provincial by-laws.

To protect your health, the health of your children and pets, here are some signs of illegal herbicide use:

- The products used often have strong chemical odour and acute exposure to herbicides can be irritating for eyes, skin and respiratory track. If you suspect having been in contact with a pesticide, rinse your skin with water and soap. Avoid walking on the treated surface for 72 hours. See a doctor for a persistent irritation.
- Few hours to many days after the application, the broadleaf weeds like dandelions and plantain will start to deform and curl like cork-screw. The leaves can also take the shape of a spoon. Broadleaf weeds completely die after many days but grasses remain unaffected. These symptoms are known by experts as synthetic hormonal herbicides that can not be caused by natural products.

Whoever transgresses the pesticides by-law is liable to a fine up to \$1000 for a first offence and up to \$2000 for subsequent offences. For companies that commit subsequent offences, the fine can come up to \$4000.

To confirm a pesticide application on a lawn, contact the Green Line. It is for your safety.

Careful!
This sign does
not always tell
you the truth.

Sunday and Monday: closed

Green Patrol 2009

For the third consecutive year, the Pierrefonds-Roxboro green patrol worked this summer on informing and educating households on the steps to take for better protecting our environment.

Demonstrating originality and determination, the 3 youths who composed the 2009 green patrol reached through kiosks, door to door or animations all of the citizens of Pierrefonds-Roxboro during the 9 weeks of the project: 8th June 2009 to 7th August 2009.

In order to increase their impact, the green patrol led 2 green theme days, a first on home composting, a second on the recovery of rainwater and greening. Here are the common themes on which the patrol spent 50% of their time this summer:

Organic waste management:

- Yard residues - Green collection
- Promotion of home composting and vermicomposting

Recovery of rainwater and greening

- Disconnection of eaves troughs of residences with roofs in slope
- Greening of walls or paved areas

During these days, the group of patrollers held simultaneous kiosks of awareness in over 20 different locations on the island of Montreal. These awareness days have been publicized in local newspapers.

The project of the environmental education patrollers was created in 2005 by the Conseil régional de l'environnement de Montréal (CRE Montréal) in partnership with the management of the environment of the city of Montreal, the boroughs, the program Emploi-été Canada and the regroupement des Éco-quartier (REQ).

The project's main objective is to raise awareness on various environmental issues affecting the community of Montreal and to encourage them to take steps as part of the actions of the first strategic plan for sustainable development in Montreal.

Specifically, the Green Patrol enables students in environment or sciences to gain experience working with the public in the environmental sector.

Since its opening in April 2007, the éco-quartier Pierrefonds-Roxboro coordinates annually the work of the green patrollers.

If citizens are concerned with the reports of the patrollers, they can always consult the website of the CRE Montreal.

The citizens of Pierrefonds-Roxboro will be able throughout the year to inform themselves at the éco-quartier on all issues addressed by the Green Patrol in particular and on all environmental issues in general.

2007 : 2 patrollers
2008 : 3 patrollers
2009 : 3 patrollers

SOCIAL DEVELOPMENT

For a better quality of life

An open air gym

CARDIO PLEIN AIR offers cardio and muscle toning classes at Bois-de-Liesse Nature-Park. The small group classes (10 to 15 participants) are personalized and ensure a complete training and excellent aerobics while you socialize and take advantage of the great outdoors. Many courses are available: Cardio Muscle Toning, Cardio Stroller, Cardio Vitality, Cardio Express and Outdoor Tonus. Flexible schedule: mornings, lunch hour and evenings. Come and workout with us outdoors (four seasons) with dynamic and certified instructors.

West Island Assistance Fund

9, rue Centre Commercial, Roxboro
514 683-0456

Created in 1966, the West Island Assistance Fund's mission is to help the under-privileged of the West Island. In 2008-2009, our food bank distributed 4,500 food baskets to 1,047 families and paid for day camps for children of needy families. We also operate a second-hand clothing store and hold income tax preparation clinics.

Cloverdale Village House Cooperative

Opening of an Affordable Cost Retirement Home in Cloverdale Village. Designed for autonomous or semi-autonomous individuals, Godard Residence offers 22 one bedroom apartments, of which 11 are eligible for rent subsidies from the Office municipal d'habitation de Montréal. The building is sound proofed, has an elevator and is built according to innovative economy saving concepts. It is located near services and the Bois-de-Liesse Nature-Park.

The Family Resource center

Many capable children experience frustration and failure in school because they lack the skills necessary to accomplish their school work. **THE FAMILY RESOURCE CENTER** offers a **Study Skills Program** where your child can learn how to: study, take notes, do homework and take tests. This weekly program is for children 8- to 13-y.o. (grades 3-7). Registration August 22 from 9 a.m. to 12 p.m. at the Pierrefonds Cultural Centre, 13850, boulevard Gouin Ouest.

Is your child having a hard time working in a team or making friends? **THE FAMILY RESOURCE CENTER** offers a **Social Skills Program** where your child can learn how to: work in a team appropriately, make and maintain friendships, express and deal with their feelings. Our weekly program is for children 6- to 12-y.o. Registration August 22 from 9 a.m. to 12 p.m. at the Pierrefonds Cultural Centre, 13850, boulevard Gouin Ouest.

RENSEIGNEMENTS
514 685-5912

Maison des jeunes A-Ma-Baie

9625, boul. Gouin Ouest, Pierrefonds
514 685-2989 ou 514 684-9353

Maison des jeunes À-Ma-Baie is a community organization that serves teenagers between the ages of 12 and 17. Its mission is to enrich teenagers' life and to encourage them to become responsible citizens. We offer services such as: homework assistance, workshops, outings and a drop-in centre with exceptional animators, an abundance of technology (giant plasma screen, computers, and video games), as well as many board games.

Opening Hours
Tuesday, Wednesday and Thursday
1:30 to 9:30 p.m.
Friday and Saturday
1:30 to 11 p.m.
Sunday 3:30 to 8:30 p.m.

Home Aid Service
