

Be careful when unloading. We don't want any accidents!

### What can you drop off?

Ecocentres aren't dumps! Only recyclables are accepted.

- ▶ Refrigerators, freezers and air-conditioners containing halocarbons (coolant gases)
- ▶ Information and communications technology devices (computers, printers, sound systems, televisions, DVD or VHS players, etc.)
- ▶ Items that could be reused
- ▶ Bulky upholstered items (sofas, armchairs, etc.)
- ▶ Recyclables: paper, cardboard, and glass, plastic and metal containers for household use
- ▶ Ferrous and non-ferrous metal items
- ▶ Bicycle tires, inner tubes and worn-out automobile tires measuring 33 inches or less
- ▶ Construction, renovation and demolition waste (wood, gyproc, asphalt shingles, aggregate less than 45 cm in diameter consisting of brick, mortar, stone, asphalt or concrete, uncontaminated soil. etc.)
- ▶ Household hazardous waste (HHW) (paint, oil, solvents, pesticides, bleach, etc.)
- ▶ Green waste

### Before you throw it away – can it be reused?

All ecocentres have a reuse centre. Residents wishing to dispose of items that are still in useable condition can drop them off at a reuse centre. These donations will be given to reuse organizations or companies.

Consult the list of reuse centres at [ville.montreal.qc.ca/reemploi](http://ville.montreal.qc.ca/reemploi)

Some reuse centres close for the winter. Please check before leaving home.

You can place clothes, toys and small household items in the donation bins year round. place clothes, toys and small household items in the donation bins year round.

### Hours

#### Winter

From October 15 to April 14, Tuesday to Saturday from 10 a.m. to 6 p.m.

#### Summer

From April 15 to October 14, daily from 8 a.m. to 6 p.m.

# ecocentre

A service exclusively for Montréal agglomeration residents

### A service exclusively for Montréal agglomeration residents

Ecocentres are sorting centres for Montréal Island residents, where they can drop off items for recovery. Reuse, recycling, composting and other appropriate forms of recovery make it possible to considerably reduce the amount of waste that ends up in landfills.

### Proper sorting means better recycling!

Why do you have to sort your materials before arriving at the ecocentre?

1. It makes your visit to the ecocentre simpler and faster.

2. Separated materials are worth more: they can be passed along to specialized recyclers.

3. It helps the agglomeration and its residents cut landfill costs.

# 70%

of the items brought to ecocentres would otherwise end up in landfills.

## Need more information?

Call 514 872-0384 or 311  
or go to
