## Preschool Centre of Saint-Laurent

The mission of the Preschool Centre is to place tiny tots at the heart of its actions, by offering a variety of quality recreational services that contribute to their overall development.

Always on the look-out for new trends in everything related to early childhood, the team of professionals is well-qualified to meet children's special needs, according to their age group.

Each workshop has been designed to:

- create special moments between the child and a significant adult in that child's life;
- offer activities that will equip the child for starting school;
- stimulate the child through a range of initiation, discovery and early learning-and-development activities;
- offer parents an alternate living environment providing an opportunity for networking, respite and better parenting practices.
