<hr style="width: 100%;"/> <p style="text-align: center; font-size: small;">Name</p>	<hr style="width: 100%;"/> <p style="text-align: center; font-size: small;">Email:</p>	Other :

**TARGETED LOCATION**

Owner's Address :	<b>AND/OR</b>	Lot Number:
-------------------	---------------	-------------

**JUSTIFICATION & DOCUMENTATION**

- It is dead or in a state of irreversible decay
- It is in an irreversible state caused by a disease, a structural deficiency affecting its solidity or serious damage that it causes to property (does not constitute a nuisance or a damage the normal inconveniences related to the presence of a tree, in particular the fall of twigs, leaves, flowers or fruits, the presence of roots on the soil's surface, the presence of insects or animals, shade, unpleasant odors, exudate of sap or honeydew or the release of pollen)
- Report of an expert (arborist, forest engineer / technician, horticulturist, agronomist, landscape architect)**
- It is located within or less than 3 meters from a planned construction site, except in the case of a sign, ancillary structure or projected retaining wall
- It is in the area where a swimming pool is located or in the area where a parking lot is located, or in front of a building's access road only if no other space is available elsewhere on the lot for development
- It represents a risk of spreading a disease or is an invasive species, in which case it must be replaced
- In order to create an 5 meter wide opening to the shore to give access to a shoreline when the slope of the shore is less than 30%
- In the case of a rearrangement of the yard (the felled tree must be replaced by at least two trees, within three months)
- Comments \_\_\_\_\_

Provide the following documents

- A plan to locate existing trees 10 cm and more measured at 25 cm from the ground, indicating their essence
- A plan prepared by a land surveyor showing the trees to be cut in the case of an expansion, new construction or redevelopment of the lot
