

New wheeled **recycling** bins get **rolling**

The Côte-des-Neiges—Notre-Dame-de-Grâce borough is pleased to be giving you a **free wheeled recycling bin** to make recycling easier for you.

The wheeled bins hold 4 to 6 times more than the small traditional green bins. They are easy to handle and the lid will help keep your neighbourhood cleaner.

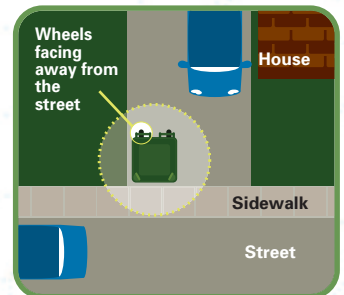

Why wheeled bins? Because they will:

- Increase the recycling rate in the Côte-des-Neiges—Notre-Dame-de-Grâce borough
- Make recycling tidier, thanks to the sealed lids
- Keep public property cleaner and prevent recyclable materials from getting blown around
- Meet the goals in the central city's waste management plan and the CDN—NDG borough's Green Plan

How to put out your wheeled bin for pick up

- You must put your bin by the curb after 9 p.m. the previous evening and before 7 a.m. on collection day
- The bin's wheels must be facing away from the street
- The bin must be placed in your driveway, as close to the sidewalk as possible in your driveway
- It must not be placed on the sidewalk, the street or a bicycle path
- You don't need to sort the material you put in your bin, but you must make sure that the lid closes completely
- Large cardboard boxes that don't fit inside the bin must be collapsed, tied up and set next to it
- You must pick up your bin within 12 hours of it being emptied

Note that the wheeled bins will not be replaced by the borough if they are broken. In addition, they remain borough property and must remain at their original address. As soon as you receive your bin, please mark your house number on it clearly with a black marker.

If you have any questions, feel free to contact one of the borough Eco-quartier offices or the Accès Montréal office, at 311.
