Modernization of the water supply system

Rue Monk

Work beginning the week of August 24, 2020

The city is performing work to modernize the water supply system on Rue Monk, between Rue Paramount and Boulevard Gouin Ouest, from the week of August 24, 2020 to the week of September 7, 2020.

Nature of the work

This work is part of the project to optimize the main drinking water supply system in the greater Montréal area. The construction and repair of the infrastructure required to regulate pressure will facilitate the management and operation of the water supply system and will reduce water main breaks.

Traffic

– Rue Monk

- Closed to traffic between Rue Paramount and Boulevard Gouin Ouest
- Local traffic only
- Detours and alternative routes are proposed

Drivers are asked to show caution around the work zones, drive at moderate speeds and respect the signage in place.

Work duration and schedule

- From the week of August 24, 2020 to the week of September 7, 2020
- Monday to Friday, from 7 a.m. to 5 p.m.
- Work may be carried out during evenings and weekends, if necessary

Please note that work activities may be moved or extended due to unfavourable weather conditions or other constraints.

Drinking water supply

Interruptions in the drinking water supply are planned. Affected residences are notified 48 hours in advance. We ask that you pay special attention to these notices so as to be well prepared and minimize the inconvenience.

Anticipated impact of the work

- **Street parking:** Parking restrictions apply in the work zone and on neighbouring streets.
- **Access to buildings:** Pedestrian access to the buildings around the work site is being maintained at all times. The sidewalks are generally accessible but may be obstructed during certain phases of the work.
- **Public transit:** Public transit is being maintained. Schedules, routes and bus stop locations may change. Please contact the STM-INFO service (514-786-4636 or WWW.STM.INFO/EN).
- **Noise and dust:** Noise and dust may be generated by trucks circulating in the area.
- **Collection of garbage and recyclable materials:** The contractor will move bins and bags outside of the work area on waste collection days. **Please identify your bins.**

The city thanks you for your cooperation and is using all the means at its disposal to limit the impact of this work.
