

# Notice of work

## Work on the drinking water plant Holiday break

**Start: December 17, 2021**

**Resuming: January 3, 2022**

### Information

#### Resumption of work

- Work will resume after the holiday season. It will be carried out mainly inside the building or on the plant site.

#### Work planned for 2022

- Delivery and installation of a new electrical room
- Installation of a new electrical connection by Hydro-Québec
- Commission of two generators on the plant site
- Commission of a new hypochlorite system and various work to replace equipment inside the plant
- Completion of the construction of a small enclosure to protect the plant's water intake on the waterfront property

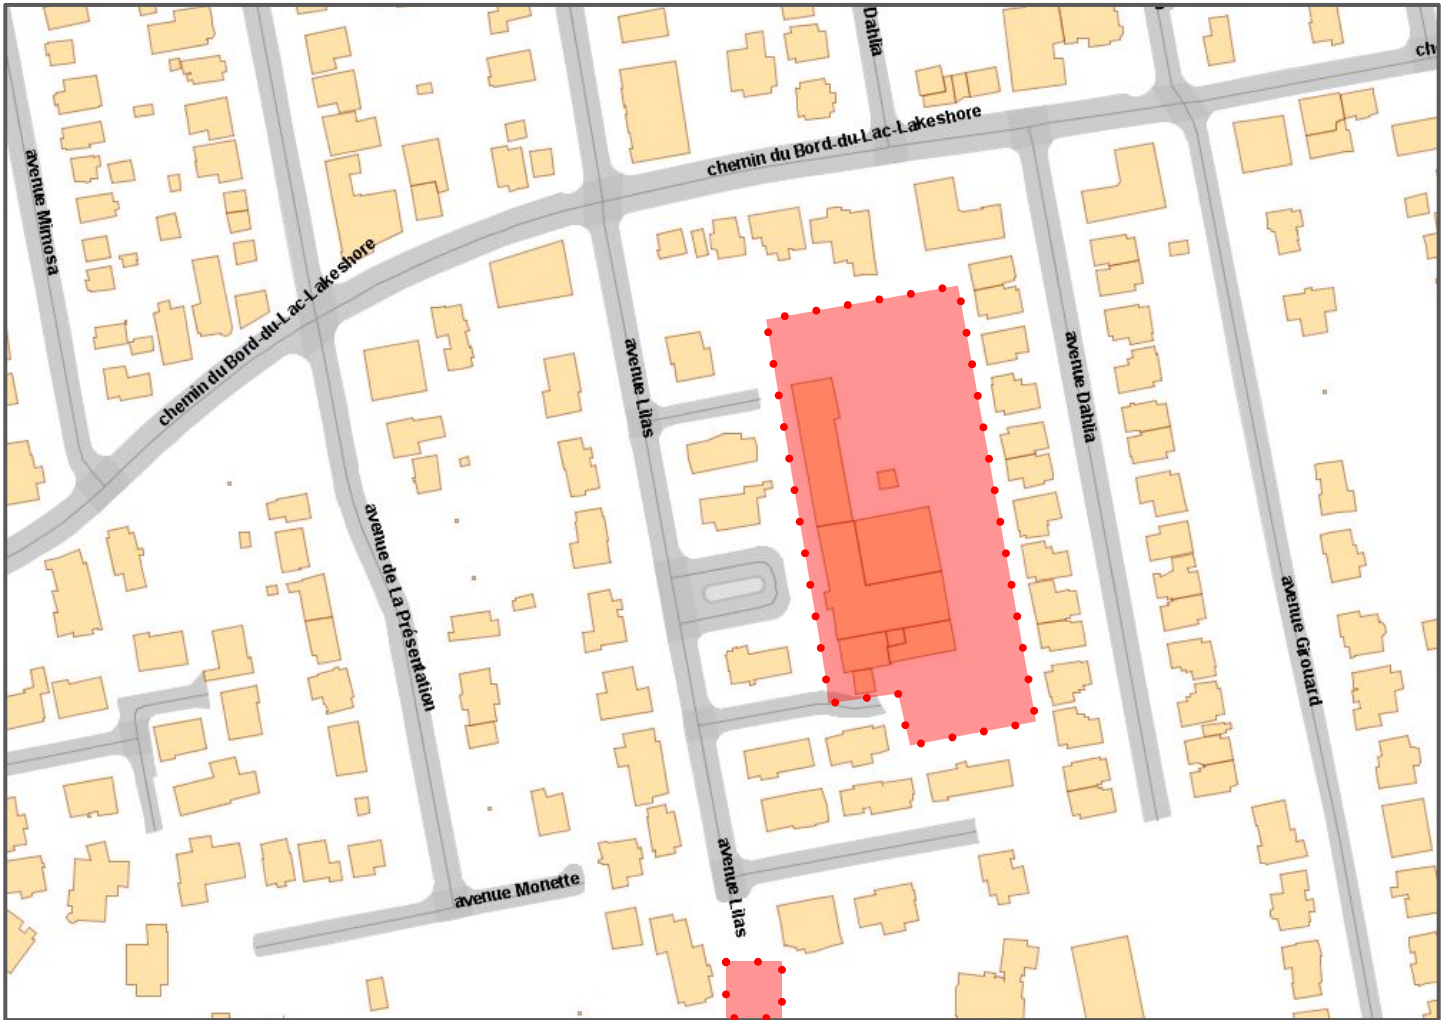

#### Completed work to date

- Preliminary work for construction of the enclosure (foundation, etc.)
- Installation of equipment and underground electrical conduits on the plant site and funeral home parking lot
- Various work on upgrading processing equipment
- Installation of a utility pole by Hydro-Québec
- Partial repair of the roof

**Starting January 3, the work teams will be on site Monday to Friday, from 7 a.m. to 7 p.m.**
