

Be careful when unloading to avoid accidents!

Accepted materials

- ▶ Refrigerators, freezers and air conditioners containing halocarbons (coolant gases);
- ▶ Information and communications technology products (computers, printers, sound systems, televisions, DVD or VHS players, etc.);
- ▶ Reusable items;
- ▶ Bulky upholstered items (sofas, armchairs, mattresses, etc.);
- ▶ Paper, cardboard, glass, plastic and metal containers;
- ▶ Ferrous and non-ferrous metal items;
- ▶ Bicycle tires, inner tubes and worn-out car tires measuring 33 inches or less;
- ▶ Construction, renovation and demolition waste (wood, gyproc, asphalt shingles, aggregate less than 45 cm in diameter consisting of brick, mortar, stone, asphalt or concrete, uncontaminated soil, etc.);
- ▶ Household hazardous waste (HHW) (paint, oil, solvents, pesticides, bleach, etc.);
- ▶ Green waste and branches. Rules change depending on the season, consult the éco-centre website for the current rules.

Before you throw it away – can it be reused?

Reuse centres

Residents wishing to dispose of items that are still in good condition can drop them off at a reuse centre. These donations will be given to organizations or companies working in the reuse sector.

All reuse centres (except for the LaSalle one) are closed for the winter, from October 15 to April 14.

Residents can go to the reuse centre at the LaSalle éco-centre to buy recycled construction materials (doors and windows, bathtubs, sinks, tiles, etc.).

For alternatives, consult the Reuse centre address directory at: ville.montreal.qc.ca/reemploi

Donation bins

All the éco-centres have donation bins where you can drop off clothes and accessories, toys and household linens year round.

Opening Hours

Winter

From October 15 to April 14,
Tuesday to Saturday
from 10 a.m. to 6 p.m.

Summer

From April 15 to October 14,
daily from 8 a.m. to 6 p.m.

Écocentres

A service exclusively for Montréal agglomeration residents

A service exclusively for Montréal agglomeration residents

Écocentres are sorting centres for Montréal Island residents, where they can drop off items for recovery. Reuse, recycling, composting and other appropriate forms of recovery make it possible to considerably reduce the amount of waste that ends up in landfills.

Proper sorting means better recycling!

Why is it important to sort your materials before arriving at the éco-centre?

1. It makes your visit to the éco-centre simpler and faster.
2. Sorted materials are worth more: they can be passed along to specialized recyclers.
3. It helps the agglomeration and its residents to reduce considerably landfill costs.

70%

of the items brought to éco-centres would otherwise end up in landfills.
