OFFICIAL NEWSLETTER OF THE BOROUGH OF CÔTE-DES-NEIGES-NOTRE-DAME-DE-GRÂCE • VOL. 5 Nº. 3 AUGUST 2013

## Citizen alerts

### **Directory of sports and leisure activities for 2013-2014**

This fall, the Borough is offering a full slate of fun-filled activities meant to keep residents active!

Pages 7 to 10

### Citizen alerts

(continued from first page)

This new electronic tool, dubbed Alertes citoyennes (citizen alerts), is a free web application that sends short messages to your computer or smart phone in order to notify you of a current or future priority situation in the borough.

With this new service, updates on traffic hindrances, broken water mains or emergency operations can be communicated simply and instantaneously to citizens who consult the alerts. Alerts will be issued only where a predictable or unpredictable situation is likely to have a major impact on your daily routine.

Online citizen alerts will be issued as of August 23, 2013. Functionalities such as geolocation will make messages easier to understand. In a subsequent phase, citizens will be able to share information by e-mail as well as on Facebook and Twitter.

### **Smart phones**

While the alerts may be consulted on the Borough website at any time, communications will be more effective thanks to a subscription service

guaranteeing that users receive messages on their smart phones or in their electronic mailboxes. Only an e-mail address is required.

#### Simple and useful

Citizen alerts are particularly useful for keeping citizens informed of last-minute changes or emergency situations. For example, the boiled water advisory on May 22 could have been communicated through an alert service.

In a world where timely communication is critical, the Borough deemed it essential to develop a tool that broadcasts messages in real time and that is accessible and "up to speed" with today's digital citizen.

### Urban development Evening of reflection on civic participation

The Borough of Côte-des-Neiges—Notre-Dame-de-Grâce cordially invites you to an information and discussion session on citizen participation in urban planning.

This session will see various borough representatives explain the obligations and procedures to follow in regards to public consultation. In addition, the approval process for a specific proposal and the operations of the Urban Planning Advisory Committee will be presented.

At the conclusion of the presentation, citizens will be able to ask questions on the subject.

Wednesday, August 28, 2013 at 7 p.m. 6767, chemin Côte-des-Neiges

### Sanitation of dwellings More inspections

An action plan intended to improve sanitation in CDN—NDG dwellings was presented by Mayor Perez last June in the presence of Public Health representatives, the Ville de Montréal and communuity-based organizations.

Among the measures put in place to increase the number of sanitation inspections in dwellings (which currently stands at about 2,000 inspections per year), the Borough has assigned a new member of its inspection team to carry out systematic preventive visits in areas deemed more at risk of encountering this type of problem.

The plan also calls for increased efforts to work in partnership with community groups, public health representatives and Ville de Montréal departments. These partners are now being asked to report all unsanitary dwellings. Community partners will also have a mission to support tenants throughout the process.

Borough residents who wish to know more about the procedure to follow in the event of a sanitation problem in a dwelling may call 311 or go to the Accès Montréal office located at 5160, boulevard Décarie.

Mayor Perez presenting the CDN—NDG action plan on sanitation in dwellings, which emphasizes greater prevention.

### **Your Borough Council**

REGULAR BOROUGH COUNCIL MEETINGS

Tuesday, September 3 Monday, September 30 Monday, November 18 Monday, December 9

Regular Borough Council meetings begin at 7 p.m.

The September and November meetings will be held at 5151, chemin de la Côte-Sainte-Catherine (Cummings building), while the December meeting will be held at 4410, avenue West Hill (Monkland Community Centre).

#### **Question period**

Citizens wishing to participate in question period must register at the reception desk between 6:15 and 6:45 pm. At the beginning of the meeting, names will be drawn at random to determine the order in which citizens will speak.

### 2013 edition

### Outstanding Citizens Société de of CDN-NDG

At the annual Outstanding Citizens Awards gala held at the Oscar Peterson Concert Hall on June 6, 2013, the CDN-NDG Borough recognized the social engagement and exceptional achievements of five individuals who made a real difference in their communities.

"For the fourth consecutive year, we honoured citizens who embraced a shared cause, that of improving the quality of life in CDN-NDG. These individuals are ambassadors, and because of them, we're all a little better off," said Borough Mayor Lionel Perez.

a non-profit organization that offers perinatal social services to pregnant women in vulnerable situations and their families.

Paris founded The Friendship Circle in 2001 in collaboration with her husband. The organization enables children with disabilities to break their isolation and make a friend. Her dedication to her community is such that parents in the neighbourhood know they can count on Ms. Paris at any time.

Dr. Gilles Julien founded the Centre de services préventifs à l'enfance in Côte-des-Neiges in 2003. Much more than a traditional paediatrician, he has made it his mission to allow children

Paul Cargnello

in vulnerable situations to flourish and develop their full potential. Recognized as the father of community-based social pediatrics, Dr. Julien created a preventive approach intended to ensure that the fundamental rights of children are respected.

Paul Cargnello is a well-known singer-songwriter and an exceptional guitarist. He is also involved in a number of social causes and is deeply engaged in his community. Since 2010, Mr. Cargnello has served as chief organizer of NDG Arts Week, an event that showcases the unique creative talents of artists who call CDN-NDG home and that uses art as a vehicle for social integration.

### of 2013 James F. Olwell has dedicated

The five Outstanding Citizens

his career to social justice. He has worked in the Côte-des-Neiges-Notre-Dame-de-Grâce borough for 20 years. In addition to holding the position of community organizer at the CSSS Cavendish, Mr. Olwell has poured his heart and soul into setting up several advisory bodies in NDG, and he is actively involved in a number of community-based organizations.

Dr. Vania Jimenez has made an invaluable contribution to the well-being of families in CDN-NDG. A woman blessed with a big heart and a keen mind, she is the co-founder of La Maison Bleue,

### Health in every sense of the word

The Côte-des-Neiges—Notre-Dame-de-Grâce's Déclaration pour un arrondissement en santé was tabled at the Borough Council meeting on August 12, 2012. This declaration affirms the intention of the elected officials to act within their power and jurisdiction and with the resources at their disposal in order to improve the well-being of citizens. It will serve to guide the commitments and actions undertaken by the Borough with the objective of promoting a healthy living environment.

"Health can be both physical and mental, but it can also refer to economic, environmental or social health," said Borough Mayor Lionel Perez. "This declaration will serve as a benchmark for us, one we can refer to daily in order to offer the best

services possible and manage the issues specific to our borough."

Starting in the fall, the Borough will initiate its health shift. This initiative will see the Borough work closely with its community-based and institutional partners with the goal of developing a set of orientations and actions in favour of health.

The public has already sprung into action! Inspired by the declaration, borough day camp directors held a simultaneous physical activity on August 1 meant to get children moving and raise awareness of the importance of maintaining an active lifestyle.

To consult the declaration, please visit the borough website.

### FROM THE MAYOR'S OFFICE

### **Lionel Perez**

Borough Mayor

Dear citizens,

Throughout the summer, we have continued to search for ways and means to meet your expectations while improving conditions for community-based management. Among the new projects we have put forward, I would like to highlight the launch, on June 13, of our strategy aimed at improving sanitation in dwelling units. In particular, the strategy calls for the creation of a new position and increased cooperation with community-based nizations. Thus, on top of 2,000 annual inspections, there will be an additional 500 preventive visits.

May I also express how proud I am to have supported the adoption of the Déclaration pour un arrondissement en santé at the last Borough Council meeting. This declaration gives expression to a philosophy I hold dear. After

all, the notion of heath embodies much more than the delivery of care. Sanitation, environment, urban planning, sports and housingeach of these dimensions has an impact on our health and quality of life.

Finally, as you know, Montréal and Côte-des-Neiges-Notre-Dame-de-Grâce have an appointment with democracy on November 3, 2013. The upcoming election will mark the end of a difficult period, one that we would not have come through without the dedication, courage and dignity of all the civil servants working in and for our borough. A warm word of thanks goes out to all of you.

Have a wonderful autumn! Kindest regards,

### FROM CITY HALL

### Laurent Blanchard

Mayor of Montréal

Dear citizens,

With summer now well underway, many of you have already started your vacations or are poised to start them. I hope you make the most of your well-deserved holiday. Whether you stay in Montréal or take to the road, don't forget that your city is offering a full slate of popular events downtown, on the islands and in the boroughs until late autumn. I highly recommend a visit to the Montreal Botanical Garden for the Mosaïcultures internationales Montréal 2013. This is a major event you don't want to miss, and it's

happening here, in an exceptional setting! Those who had the pleasure of taking in the first edition in 2000 will be eager to see how this horticultural art form has evolved over the last decade. Those who missed the chance will be that much more impressed when they discover works by the world's leading topiary artists.

Enjoy the weeks ahead!

### Start of work on the NDG Cultural Centre

Illustration of the Notre-Dame-de-Grâce Cultural Centre as seen from avenue de Monkland.

Construction of a new cultural centre in Notre-Dame-de-Grâce got underway in July at the corner of avenue de Monkland and avenue Benny. The LEED-certified building will house the new Benny library as well as a multi-purpose performance hall for shows and exhibitions.

This new cultural centre represents an investment of \$23.6 million and receives financial support under the Entente sur le développement culturel de Montréal between the ministère de la Culture et des Communications and the Ville de Montréal.

### **Universal accessibility**

## Hearing aid system in our maisons de la culture

In the coming weeks, the two maisons de la culture in CDN—NDG will be equipped with hearing aids so that hearing-impaired persons can enjoy scheduled shows and films to the fullest. Installed just in time for the start of fall programming, these systems give hearing-impaired persons a chance to participate in the cultural life of

their community and thus break their isolation.

To consult the list of rooms equipped with hearing aids, please visit adsmq. org/repertoire.htm

Enjoy the show!

### Parc Jean-Brillant cultural venue

Activities presented at parc Jean-Brillant's cultural venue were a resounding success with local residents, with hundreds attending shows and taking part in the various activities offered this summer. For details on upcoming activities, please consult our website or pick up a folder from the supervisor at the facility.

### Investment in our parks

The many parks in CDN—NDG are at the heart of community life; for this reason, improving them and updating park installations is a priority. Here is an outline of the projects that will be carried out in the coming months:

Work scheduled under the *Programme d'amélioration des aménagements dans les parcs de la Ville de Montréal 2012-2013* (Ville de Montréal park facilities improvement program)

**Parc Jean-Brillant :** Work will start this fall on the redevelopment of the play area for children aged 6 to 12 as well as the main entrance to the park. The footpaths will also be repaired.

**Parc Coffee:** The entire park will get a make-over. New play modules for children aged 18 months to 5 and 6 to 12 will be installed, users will get a new rest area, and the landscaping will be redone.

**Parc William-Bowie:** Work will start this fall on the development of two microsoccer fields to replace the baseball field that was no longer in use. In addition, our teams will repair the bocce court, install new urban furniture and redo the landscaping.

**Parc Trenholmes:** To meet popular demand, work will begin this fall to replace the baseball field with a soccer field.

Parc Nelson-Mandela: Starting in September, the park chalet will be expanded and completely renovated.

**Parc Macdonald:** Phase 2 of work on the chalet will begin

in September and will include the development of rooms for community organizations, indoor toilets, the addition of outdoor toilets (universal access) and the installation of outdoor showers near the wading pool.

Parc Maurice-Cullen: Construction of a new park chalet will begin this fall.

### Fight against the emerald ash borer ville.montreal.qc.ca/agrile

The Borough is investing \$100,000 locally to protect its magnificent green cover against the emerald ash borer. This sum will serve to support efforts already undertaken by the Ville de Montréal's Direction des grands parcs et du verdissement, and it will make it possible to preserve an additional 130 of our stately ash trees.

As it has elsewhere in Montréal, the emerald ash borer has taken up residence throughout the entire borough—and the infestation is spreading extremely fast. The ravages caused by this insect may not yet be noticeable, but the fight has begun in earnest.

Over the course of the summer, the borough's horticulture team treated 600 mature trees, injecting a biopesticide aimed at reducing the pest's population and limiting its continued spread. We hope to preserve our healthy ash trees for as long as possible, as they form an important part of the borough's green cover.

There are plans to cut down several dozen ash trees in 2013. In order to minimize the inconveniences related to this operation, the borough will prioritize the planting of trees on sites where others have been cut down. To date, some 20 small ash trees have been felled; their smaller size made it possible to destroy them

Horticulture experts within the CDN—NDG borough have begun the process of injecting biopesticide as part of efforts to preserve 600 ash trees throughout the borough.

on site. Subsequent cutting will be carried out after October 1, in compliance with the ministerial order issued by the Canadian Food Inspection Agency (CFIA) banning the transportation of wood products and firewood outside of the Island of Montréal, the Ville de Laval and the agglomeration of Longueuil.

### **Essential collaboration** of residents

Collaboration from residents is essential in order to succeed in our fight against this pest.

Please check the ash trees on your property with the help of an arboriculture professional. The latter will check the condition of the trees and administer the preventive treatment recommended for healthy ash trees. To select a professional, consult the website of the Société internationale d'arboriculture Québec inc. at SIAQ.org.

Remember that branches from deciduous trees are excluded from the collection of green waste; they are subject to a special collection. To dispose of branches from your deciduous trees, please call 311.

For more information, go to <u>ville</u>. <u>montreal.qc.ca/agrile</u> or contact the Accès Montréal network by dialing 311.

### **Literary contest**

As part of its 30<sup>th</sup> anniversary, the Côte-des-Neiges library is staging an amateur literary contest, and residents are invited to submit their manuscripts.

All styles will be accepted, providing that the work is accessible to all readers; in other words, it must not be intended for a specialized or an academic readership.

The winner will be chosen by a jury of five people.

A \$250 gift certificate from librairie Olivieri will be presented to the winner.

The winning manuscript will be featured in the collection titled *Votre voisin est un écrivain*. This new collection will be launched on October 19 in conjunction with the Semaine des bibliothèques publiques, and it will form part of a permanent exhibit on the ground floor of the library.

**Registration:** Manuscripts must be forwarded by e-mail

to the following address by **no later than** September 6, 2013: communications.

cdn-ndg@ville.montreal.qc.ca

**Theme:** Why Côte-des-Neiges?

**Rules:** Amateur authors must be 14 or over and must

be residents of the Borough

Manuscript: 2,500 to 3,000 words, in French only, submitted in electronic format

Announcement

of the winner: September 21, 2013 at the

Côte-des-Neiges library

### **Small steps against hunger**

It's more than a tradition in CDN—NDG: For 11 years and counting, children at day camps have combed the street of the borough to collect non-perishable foodstuff. Known up to now as Festi-Faim, the food drive was carried out last July 30 over the entire territory spanned by the Ville de Montréal, under the evocative name "De petits pas contre la faim" (small steps against hunger). To make the most of this major initiative, borough residents and employees were also able to leave donations at designated drop-off points between July 22 and July 30, 2013.

This food drive helps to foster generosity and community spirit among young people; perhaps more importantly, it helps to replenish food bank stocks, which tend to dry up during the summertime. This year, the fruits of their efforts were donated to Moisson Montréal.

Heartfelt thanks go out to all the children who made "small steps" in the borough on July 30 and to the numerous partners who contributed to the event's success.

### **NEW ROAD SIGNAGE**

Motorists are asked to pay attention to the road signage: starting on August 26, it will be forbidden to turn left on rue McKenna at the intersection of avenue Lacombe. This restriction will be in force during morning and evening rush hours, from 6:30 a.m. to 9:30 a.m. and from 3:30 p.m. to 6:30 p.m. This measure should improve safety for pedestrians as well as the flow of traffic.

### Green lanes

Following the launch of the borough's green laneways program last April, three groups of citizens submitted a project to their éco-quartier. These initiatives will result in the development of three green laneways in the coming months, and the initial project phases are already underway.

A residents' committee has been established for each of the three projects. Throughout the process, these committees will receive expert advice from éco-quartier and financial assistance from the borough.

The green laneways program is a by-product of the Local Sustainable Development Plan 2012-2015, and its goal is to curb urban heat island effects. As havens of fresh air, green laneways allow residents to enjoy a friendly and peaceful communal space.

### New urban rest area

Peter McQueen, councillor for the district of Notre-Dame-de-Grâce, takes a few moments to enjoy the new urban rest area constructed in front of 3760, boulevard Décarie, as part of renovation work on the NDG Community Centre.

Moving? Doing a major clean-up? Renovating?

### New bylaw on water use

ville.montreal.qc.ca/eaudemontreal

On June 20, a new bylaw came into force in 19 boroughs. The bylaw is intended to maintain the Ville de Montréal's ability to provide water to all its residents at all times and at lesser cost.

Watering lawns and other vegetation: different methods at different times

### By means of a portable sprinkler or soaker hose

- Residents at even-numbered addresses may water on even-numbered dates, and residents at odd-numbered addresses may water on odd-numbered dates.
- Evenings from 8 p.m. to 11 p.m.

### By means of an automatic system

- Must be equipped with a moisture sensor
- Residents at even-numbered addresses may water on evennumbered dates, and residents at odd-numbered addresses may water on odd-numbered dates.
- Must be programmed for nighttime, between 3 a.m. and 6 a.m.

#### By hand

• May be done at any time

Watering on rainy days is forbidden under any circumstances.

### For a more convivial avenue de Courtrai

Landscaping in front of 4650, avenue de Courtrai.

Financed under the Quartiers 21 program for the third and final year, the *For a more convivial avenue de Courtrai* project literally changed the face of avenue de Courtrai thanks to the greening of 21 lots. To date, some 300 shrubs and 30 trees have been planted. Picnic tables and benches have been added, and vegetable planters for use on balconies have been distributed. Through sustained effort, the community was also mobilized, with two events putting the spotlight on the neighbourhood: a guided visit to avenue de Courtrai in May, and "Saveurs du monde à Côte-des-Neiges", an event held on avenue Victoria in June.

Planting will continue in the months ahead. This great project put forward by the Société environnementale de Côte-des-Neiges sparked a greening movement in the community concerned, and it promises to make the area more people-friendly in the years to come. The project would not have been possible without the support of such invaluable partners as the Ville de Montréal, the CDN—NDG Borough, Montréal's public health department, Groupe information travail (projet Écolo-Boulot), Carrefour Jeunesse-Emploi de CDN, HAPOPEX and volunteer residents.

### **Fall compost distribution**

Where: Parc Notre-Dame-de-Grâce Date: Saturday, October 12 Time: From 10 a.m. to noon

Compost is a fertilizer intended for use in flower beds and vegetable gardens; it must be used sparingly. Don't forget to bring your containers. You will be asked for proof of residence.

### **Green waste collection is back!**

Every Wednesday from September 18 to November 20, the Borough will collect your green waste. In order to be collected, green waste must be placed on the curb (between 8 p.m. the day before and 7 a.m. on the collection day) in paper bags or reusable rigid containers.

Residents can also bring their green waste to the Côte-des-Neiges Ecocentre, located at 6925, chemin de la Côte-des-Neiges.

### Regular collection on holidays?

Collection of household waste, bulky objects and recyclable materials will follow the regular schedule on the following holidays: Labour Day (September 2) and Thanksgiving (October 14).

# Directory of sports and leisure activities 2013-2014
