

The Next Generation Protection for Lone Workers!

iLOC TECHNOLOGIES: CORPORATE OVERVIEW

Privately held corporation
Established Sept. 2011

iLOC Technologies was spawned from the personal needs of the CEO who was unable to find an effective wandering prevention solution for his son who has Autism that worked well, was simple to use and incorporated a feature set that suited the need.

Research into commercial and other special needs application segments resulted in the development of the **TRiLOC™ GPS Locator**, the first wrist worn 3G cellular mobile Personal Emergency Response Solution (mPERS).

Our Mission

“To be the leading provider of cutting edge, cost effective and innovative personal safety & protection solutions serving at risk individuals for both personal and commercial applications”.

iLOC TESTIMONIALS

"The web interface is great, I like we can set up the geo fence and turn it on and off!"

Mike D (USA)

"It's a unit that works as stated and at this point has proven itself to us so we have belief in it."

Anthony G (USA)

"The Triloc has performed above my expectations. Triloc is the GPS bracelet I trust for my loved one."

Steve H (USA)

"This device is the only thing that gives my family and I peace of mind. This watch is awesome!"

Michelle D (USA)

*Providing taxi drivers with a cost effective
mobile Personal Emergency Response Solution!*
