## Service info-logement

Since 1998, the Service Info-logement of the Centre de réadaptation Lucie-Bruneau has centralized and coordinated the supply and demand of rental apartments that are accessible and available for handicapped people with reduced mobility in the regions of Montreal, Laval and the South Shore.

### Service info-logement...

- Facilitates the search for apartments accessible for handicapped people.
- Increases the visibility of those who own accessible rental apartments or wish to make their apartments accessible.
- Maximizes the return on the investments made by the SAAQ, the SHQ (Home Adaptation Program), the CSST, private insurers, owners, etc. who subsidize the adaptation of apartments.

## Renters
