PUBLIC CONSULTATION MEETING

Proposed amendment to the "Schéma d'aménagement et de développement de l'agglomération de Montréal" (land use planning and development concept) to take the "Plan régional des milieux humides et hydriques" (regional wetlands and water management plan) into account, as well as protection measures for wetlands

On March 21, 2024, Montréal adopted a [regional wetlands and water management plan, the "Plan régional des milieux humides et hydriques"](#) (in French), under the *Act to affirm the collective nature of water resources and to promote better governance of water and associated environments*.

At its meeting on March 21, 2024, the agglomeration council adopted, through resolution CG24 0164, a draft by-law to amend the Schéma to ensure its compatibility with the "Plan régional des milieux humides et hydriques" and provide for consistency in land-use decision-making. - Integrate the provisions necessary for the preservation of wetlands of interest into the complementary document;
- Make administrative adjustments consistent with the above-mentioned amendments;
- Remove provisions arising from the *Protection Policy for Lakeshores, Riverbanks, Littoral Zones and Floodplains*.
